REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art to Yasui (US Patent No. 6840214) teaches that when the cylinder by cylinder variation exceeds a pre-set limit, an abnormality is judged to have occurred and a warning lamp is lit, (see col. 11, lines 10-15). The prior art, however, differs from applicant's invention in that it does not teach lowering a control gain, nor inhibiting the feedback control as a result of the abnormality.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick R. Solis whose telephone number is (703) 308-2651. The examiner can normally be reached on Monday-Thursday.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0861.
